Sketch

ZODIAC PROJECT

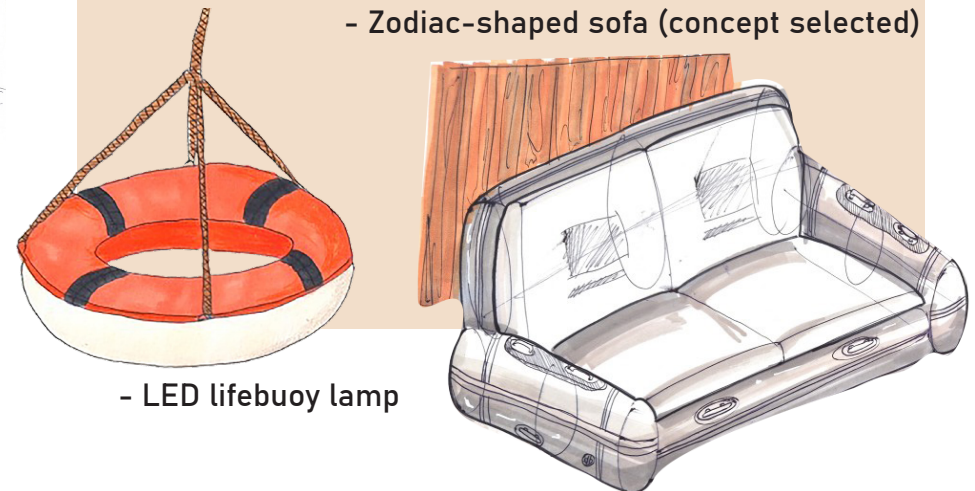

Sketch of the elements of the port of Carqueiranne.

Initial research for the creation of a design object related to elements of the port of Carqueiranne.

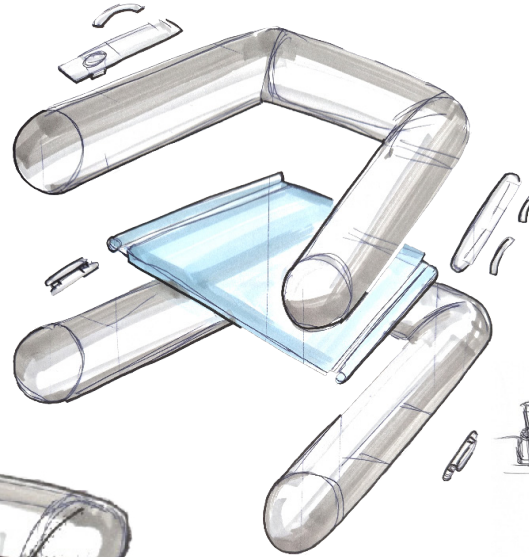

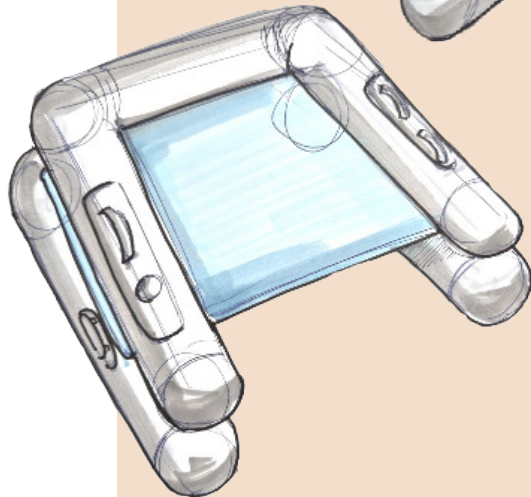

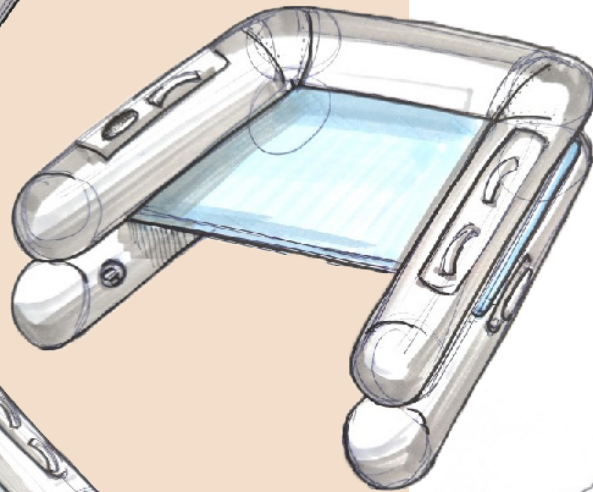

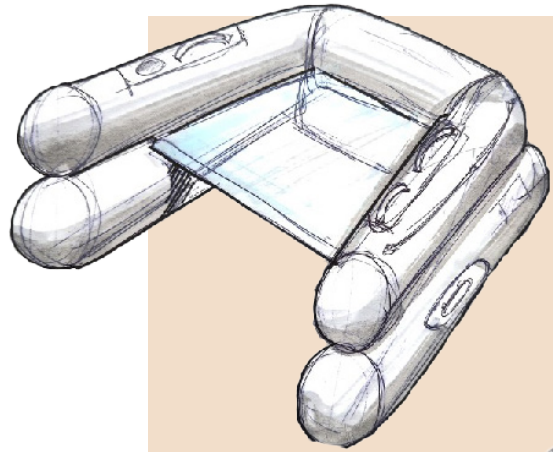

- Armchairs inspired by the hull, shape, and elements of a boat.

- Zodiac-shaped sofa (concept selected)

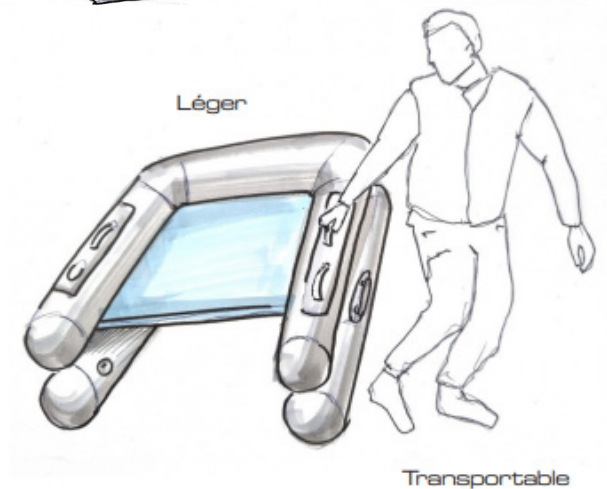

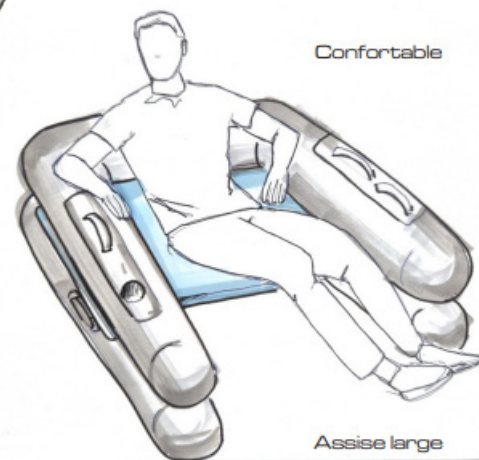

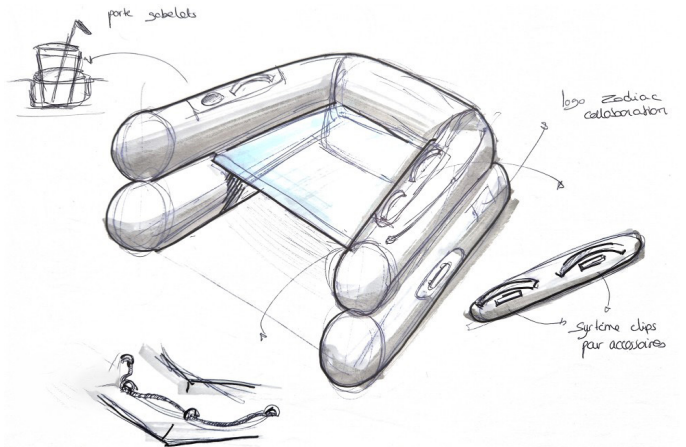

- LED lifebuoy lamp

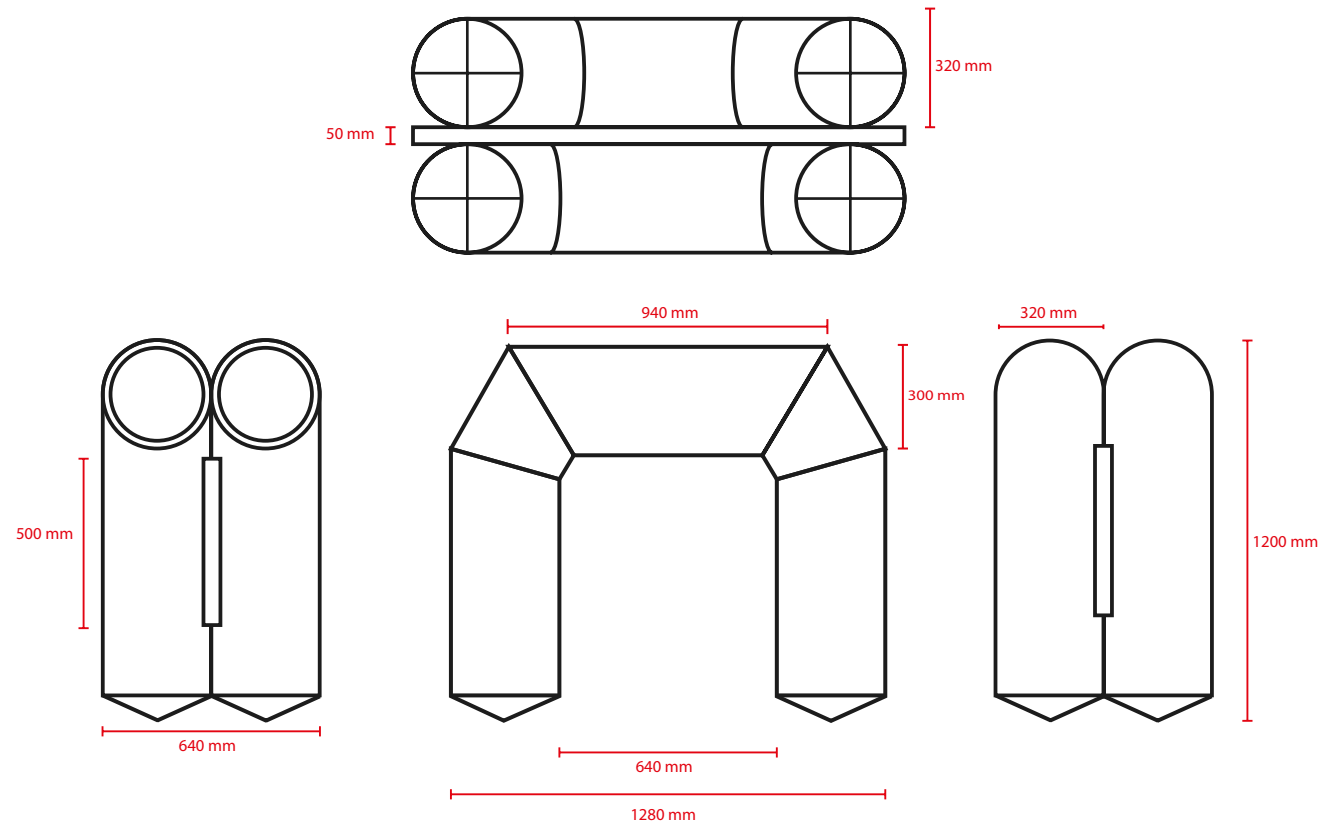

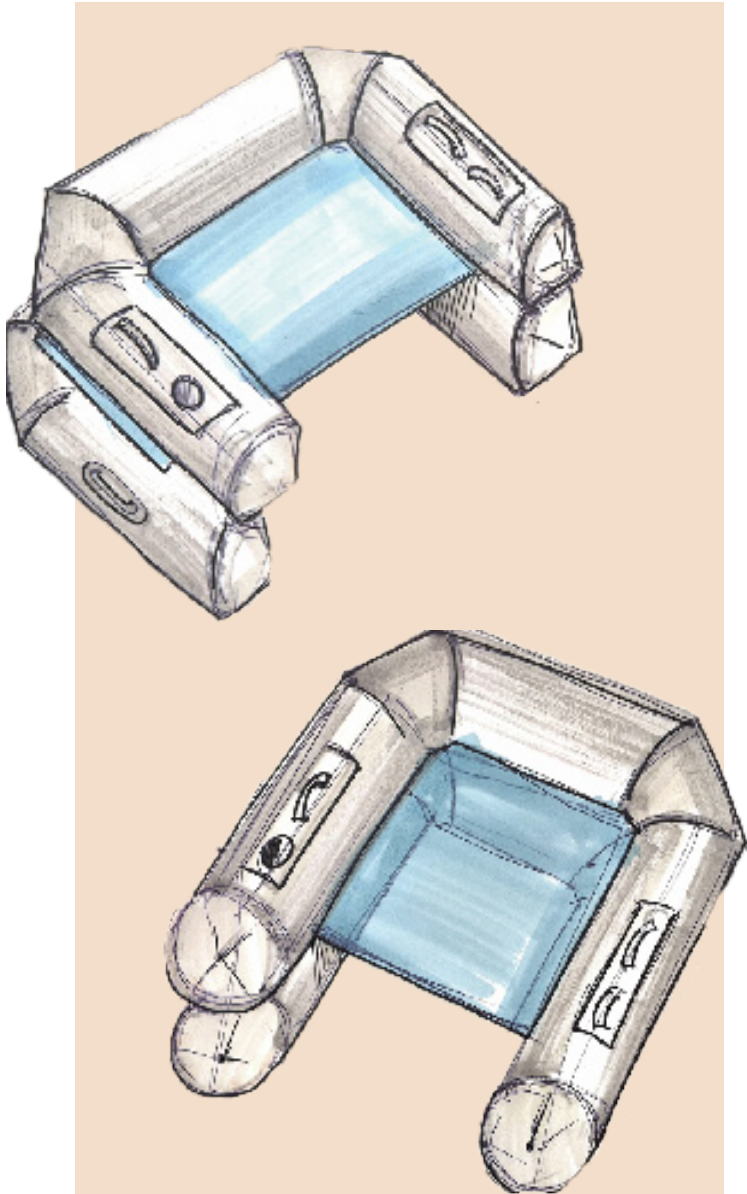

CONCEPT SELECTED

First sketches of the chosen concept, which is an armchair for the Zodiac Boat Show.

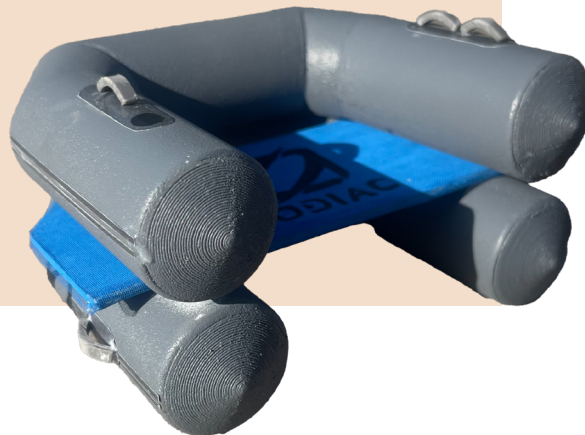

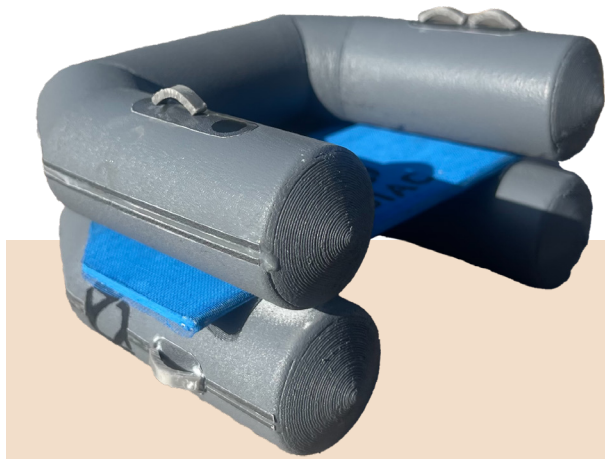

FINAL CONCEPT

Final Zodiac chair plan:

Final sketches of the Zodiac chair concept. Change in shape and dimensions.

FINAL CONCEPT MODEL

Final model of the Zodiac project: an armchair for the boat show, a second life for Zodiac.

An armchair that incorporates the design codes of their products to give a second life to old Zodiac dinghies.

MODELING

First scale model of the trestles in a room.

Using some everyday accessories:
a computer and a drawing folder.

TRESTLE

MODELING

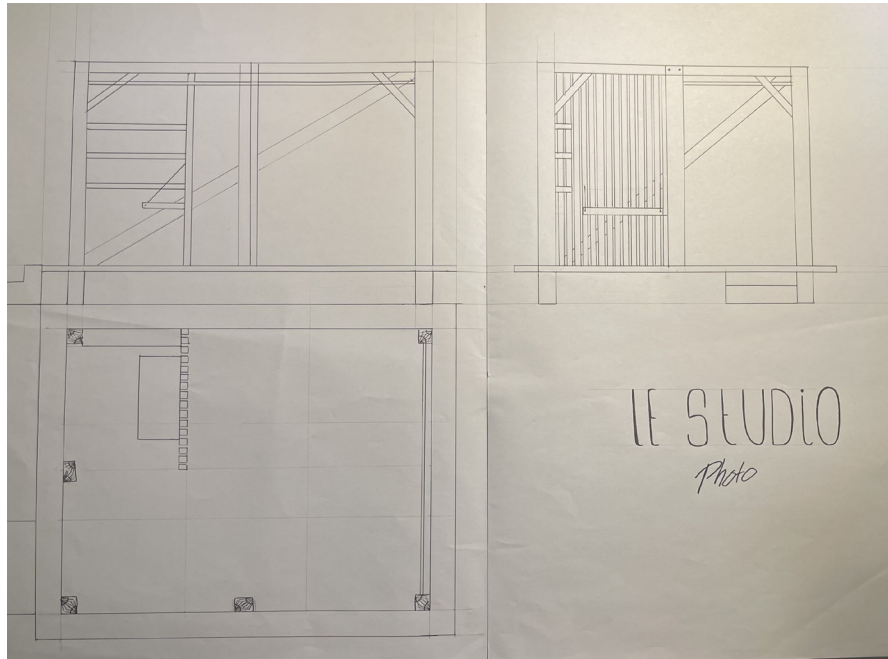

PHOTO STUDIO

Wooden model of a photo studio immersed in nature, working with the natural light of its environment.

MODELING

AQUATIC

Model of a diving and hunting center on the Noway Ark (a post-apocalyptic raft made from old shipping containers)

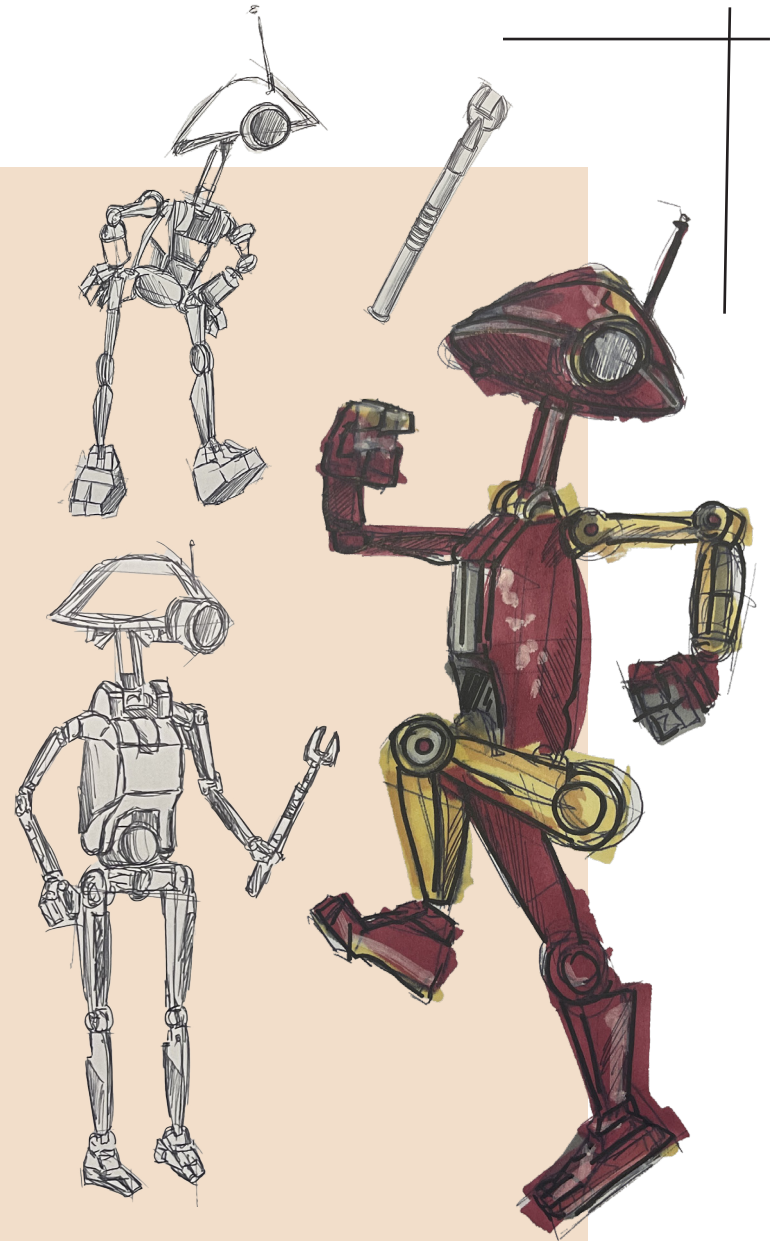

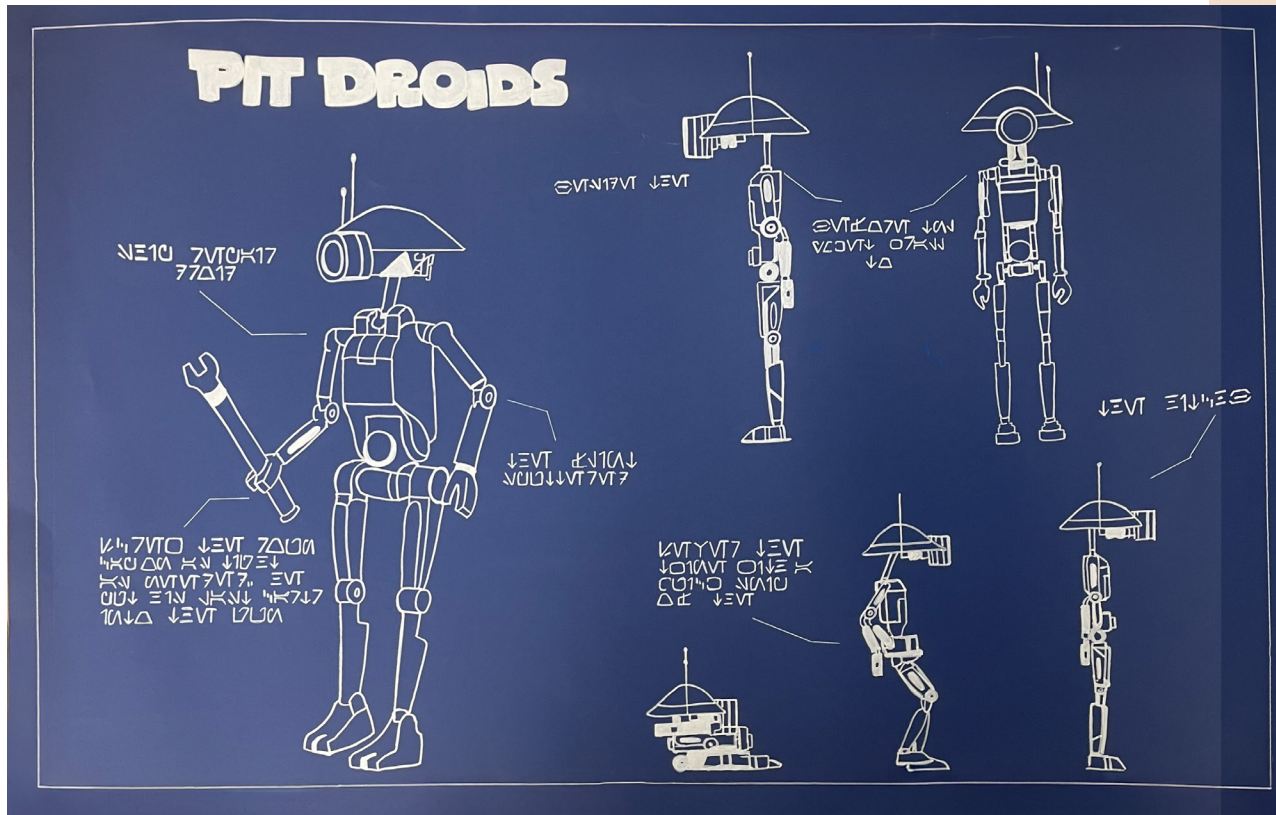

BLUEPRINT

PIT DROID DRUM

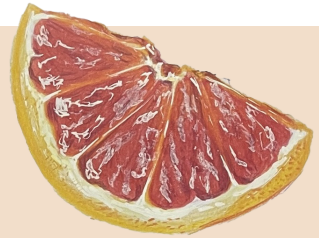

Creation of a blueprint for the PIT DROID DRUM series from Star Wars.

With some research sketches.

BREAKFAST

CITRUS ANALYSIS

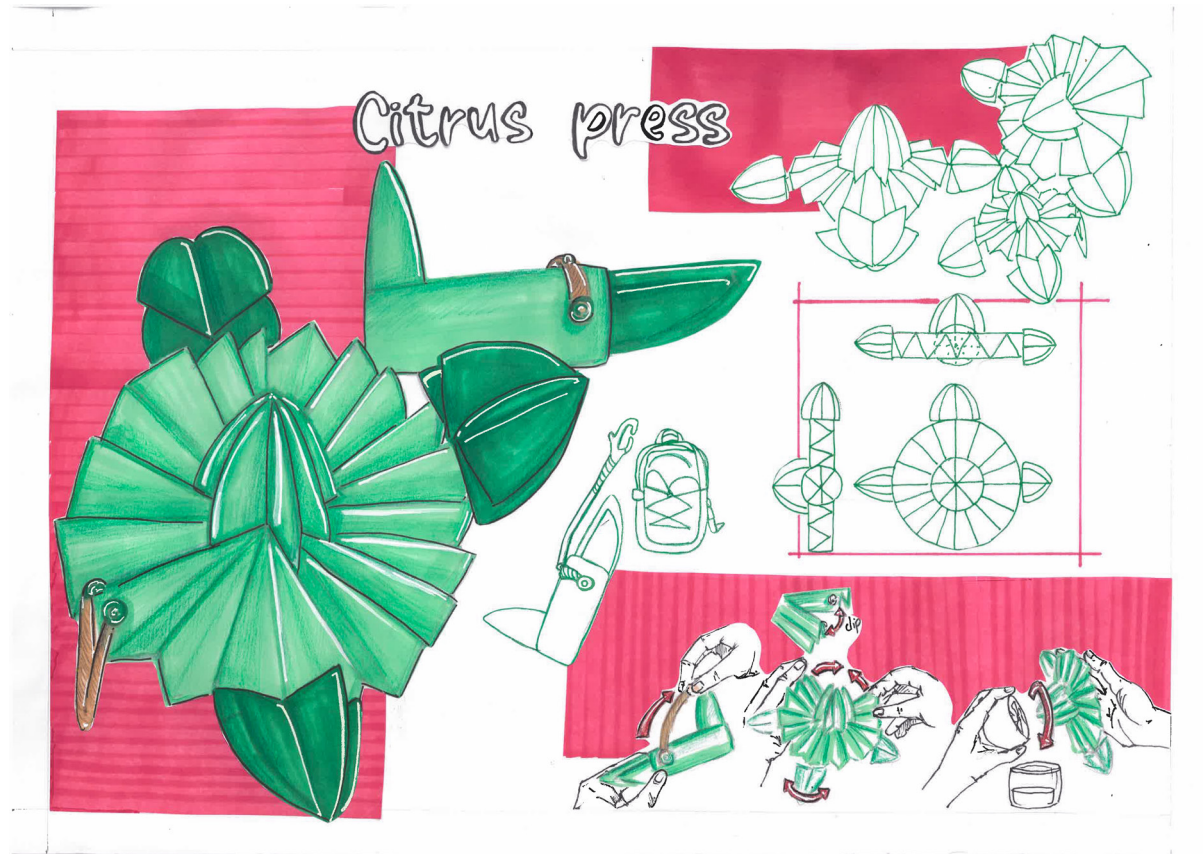

Citrus Maxima

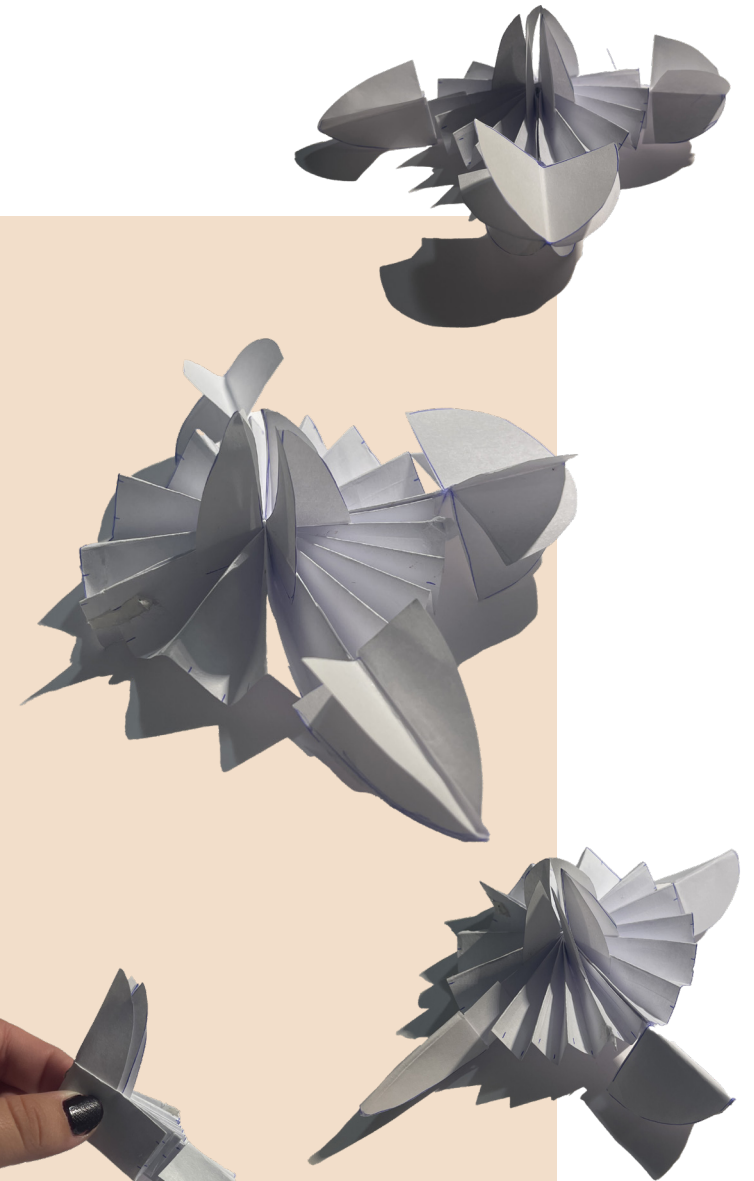

Citrus Aurantifolia

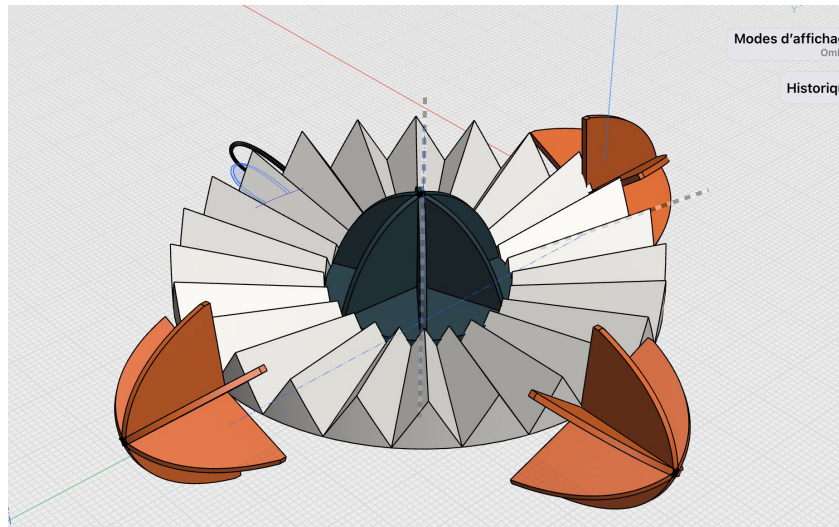

CITRUS PRESS CONCEPT

My goal was to create a foldable citrus press that could be transported for hiking, traveling, or other activities. It includes four heads of different sizes to fit any citrus fruit.

ANALYSIS TOASTER

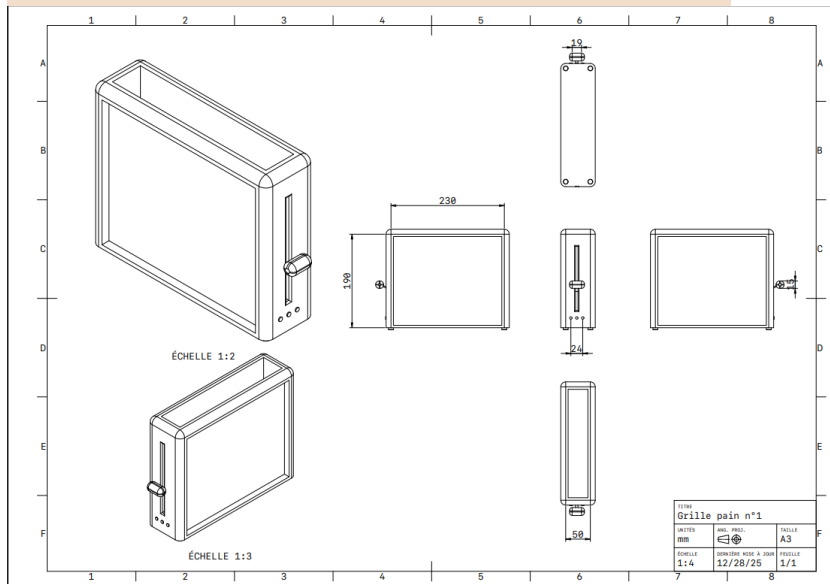

BREAKFAST

CONCEPT TOASTER

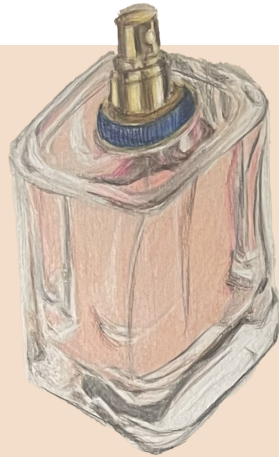

This project involves creating a toaster suitable for a shared apartment of 3 to 5 people. Each member of the shared apartment has their own toaster compartment. The compartments are charged magnetically via the central body. They can also be personalized as shown in the image below using a Velleda marker or similar.
